

You can create a lasting legacy of love for all of BC's children.

It is a magical thing to know that a decision you make today could save the life of a child 20 years or more from now. But that's what happens when you include BC Children's Hospital Foundation in your estate plans.

Childhood

the chance of a lifetime

When you leave a gift in your will to BC Children's Hospital you can help build a brighter, healthier tomorrow for all children — shaping the future of pediatric health care for generations to come.

For more information or to let us know you have made a gift through your estate, please call the Gift and Estate Planning Team at 604-875-2444.
